

Building a swimming pool, spa and barrier

Preliminary steps

To determine whether a building permit is required refer to the [VBA practice note](#).

Always check if a planning permit is required in addition to the building permit. Alternatively, a **Report and Consent** (also known as a dispensation) is required when the proposed structure does not meet the requirements of [part 5 siting provisions of the Building Regulations 2018](#).

Contacting Council

For any planning or building enquiries contact Maroondah City Council on 1300 88 22 33. You can also contact Maroondah Building Services on 03 9298 4327.

This is not a complete checklist and further information may be required. Maroondah City Council does not accept any liability to anyone who may rely solely on this information. Please check all information provided before relying upon it, and if necessary, obtain your own independent or professional advice.

See over for checklist.

Building permit application checklist

- Building permit application form**
 - [Apply for a Building Permit online.](#)
- Copy of Title and Plan of Subdivision**
 - Including recent copies (six-months minimum) showing true dimensions, land area, boundary lines, easements and encumbrances. This should also include any related documents like any [s.173 agreements](#) or building envelopes. Find out more at www.landata.vic.gov.au.

Required for owner builders

- Owner Builder Certificate of Consent**
 - Issued by the Victorian Building Authority (this is required where the value of the building work exceeds \$16,000 and when the owner has not appointed a Registered Builder). Learn more about [becoming an Owner Builder](#).

Required if you have an appointed builder

- Domestic Building Insurance**
 - Required when the value of the building works is over \$10,000 and the builder is a registered domestic builder. [Check if your builder is registered with the VBA.](#)
- Domestic Building Contract**
 - Needed if you appoint a registered builder and the value of the building work exceeds \$16,000. Ensure all details are consistent with the other application documents submitted. Learn more at www.consumer.vic.gov.au/housing/building-and-renovating/plan-and-manage-your-building-project/contracts.
- Warranty insurance certificate**
 - Needed where the value of the building work is over \$16,000. The registered builder must provide prior to the issuing of the **Building Permit**. Learn more at www.vba.vic.gov.au/building/renewals-other-requirements/building-insurance-requirements.
- Draftsperson/Architectural plans**
 - It is recommended you contact a draftsperson or architect to have these properly prepared and drawn to metric scale. Plans need to meet minimum requirements, learn more at www.maroondah.vic.gov.au/Development/Building/Building-permits/Apply-for-a-building-permit.
 - All plans must show clear compliance with AS1926.1-2012 Part 1: Safety barrier for swimming pools.
 - These plans must also include a **Pool Plan** (scale 10:100) showing:
 - The dimensions of the proposed swimming pool/spa and associated safety barrier (length x width);
 - The location of existing buildings that may be located adjoining or nearby the proposed swimming pool/spa and associated safety barrier.
 - An inground pool must be designed and certified by a **Registered Professional Engineer**.

Contact us

Phone 1300 88 22 33 or 9298 4598 Fax 9298 4345

maroondah@maroondah.vic.gov.au | www.maroondah.vic.gov.au | PO Box 156, Ringwood 3134 | DX 38068, Ringwood

ABN 98 606 522 719

- **Engineer Design Plans** must be designed and certified by a **Registered Professional Engineer** registered to work within Victoria. You can search the public register online at <https://registers.consumer.vic.gov.au/PEsearch>.
- The structural design drawings must be certified in the form of a **Certificate of Compliance for Proposed Building Work** as required in Victoria.

Other requirements

- A **Soil Engineer** will be required to provide a **Geotechnical Soil Report** for concrete and fibreglass pools.
- When constructing within 900mm of a boundary there are additional **fire separation requirements**. Refer to the [National Construction Code \(NCC\) Volume 2 Section H - ABCB Housing Provisions Standard 2022; Part 9 - Fire safety](#).
- Protection Work** may be required for certain types of works which may impact adjoining properties and public safety. A notice is served on the affected adjoining property which nominates the methods of protection. In some cases, an independent engineer may be required to create and certify the method of protection.
- A **Hoarding Permit** may be required for precautionary measures to protect the public, Council assets (footpaths), or when construction works are carried out within or near Council/public land. [Hoarding permit application form - Maroondah City Council](#).
- Building Permit and Inspections Fees** and any State Government levies are based on either the contract price or estimated cost of the development. The estimated cost includes the value (i.e. market trade rate) of all labour and materials.
- A **Building Over Easement Consent** may be required when constructing over, within an easement, or in some cases, within close proximity to a service or easement. An easement can include variety of services such as water, drainage, sewer, and electrical. Refer to your copy of title and plan of subdivision to determine the relevant authority (or authorities) for the easement, as well as the location, size, and details of the services contained within. For more information contact the relevant service authority:
